Professional Summary

Final-year B.Tech Computer Science and Engineering (IoT) student with a strong foundation in **SQL, Python, Excel, Google Sheets, and data analysis**. Experienced in analyzing datasets, building dashboards, automating reporting workflows, performing data validation, and extracting actionable insights using Python and Pandas. Strong problem-solving, stakeholder communication, and documentation skills with hands-on experience in computer vision and IoT-based analytics. Seeking an entry-level **Data Analyst** opportunity to apply analytical and technical skills to business problems.

Technical Skills

Programming Languages: Python

Databases and Query Languages: SQL (Joins, Subqueries, Window Functions)

Data Visualization and Reporting: Power BI (Basic)

Tools and Platforms: GitHub

Projects

Human Pose Detection System

- Developed a real-time pose detection system using **Python, OpenCV, and MediaPipe**, tracking **33 body keypoints** for posture analysis.
- Achieved real-time performance of **30+ frames per second** while processing continuous data streams.
- Applied computer vision techniques to extract and analyze keypoint data for movement and posture insights.

Power Consumption Analytics for Smart Homes

- Built an IoT-based analytics solution using **AWS IoT Core, AWS Lambda, and Amazon S3** to collect and process smart-home energy data.
- Analyzed energy consumption data using **Python and Pandas**, identifying trends and patterns through data visualization with **Matplotlib**.
- Designed interactive dashboards and automated alerts to support data-driven energy monitoring and decision-making.

Education

B.Tech, Computer Science and Engineering (IoT) PB Siddhartha Institute of Technology and Science	<i>2022 – 2026</i>
--	--------------------

Intermediate (MPC) Dr. B.S.R Junior College	<i>2020 – 2022</i>
---	--------------------

SSC Y.K.K.Z.P High School	<i>2019 – 2020</i>
